PROFESSIONAL SUMMARY

Frontend Developer and QA Automation professional with 4+ years of experience in SaaS, production environments, and international teams. Specialized in Playwright-based end-to-end automation and Vue 3 frontend development. Strong track record in improving software quality, reducing manual QA effort, fixing flaky tests, and optimizing team workflows.

CORE SKILLS

Playwright, E2E Testing, Automation Frameworks, Regression Testing, Smoke Testing, Test Design, Debugging, Vue 3, JavaScript, TypeScript, HTML, CSS, NestJS, REST APIs, Node.js, Git, GitHub, Jira, TestRail, ClickUp, Postman

PROFESSIONAL EXPERIENCE

SalesQ CRM — Frontend Developer & QA Automation

Dec 2024 – Present

- Develop production frontend features using Vue 3 for a CRM platform.
- Build and maintain Playwright automated test suites and improve testing reliability.
- Identify and fix frontend issues while collaborating closely with backend developers using NestJS.
- Reduce manual testing effort and improve workflow efficiency.

ClickUp — QA Analyst

May 2023 – Nov 2024

- Executed manual and automated testing in a SaaS production environment.
- Created and maintained test cases for regression, smoke, integration, and exploratory testing.
- Identified, documented, and tracked bugs across releases.
- Reduced blocker bug reporting time from 60–90 minutes to about 10 minutes through workflow optimization.

Globant — QA Analyst

Dec 2021 – Apr 2023

- Worked on gaming industry projects performing regression, integration, and exploratory testing.
- Created internal automation tools to reduce repetitive work.
- Improved internal workflows and collaborated with international teams.
- Participated in automation upskilling using Selenium and Java.

EDUCATION

- Automation Upskilling Program — Globant** | Selenium WebDriver, Java Automation, REST API Testing, Maven, Cucumber, TestNG
- Fullstack Developer — SoyHenry**
- Universidad Tecnológica Nacional, Tucumán** | Técnico Superior en Mecatrónica | 2019–2020
